DECLARATION 1956

IN THE FACE of SUBVERSIVE ATTEMPTS TO DOMINATE EARTH and THE WORKS OF MAN and in DISAGREEMENT with weak or vacillating policies which encourage these attempts,

WE THE ORGANIZATIONS OF AMERICA

DO HEREBY PLEDGE OURSELVES to the following recommendations:

TO PRESERVE the government of the UNITED STATES and the customs of our people as we have known them:

TO RESIST and exterminate by whatever democratic means at our disposal all legislation appearing before the Councils of Cities and Counties the legislatures of States or the CONGRESS of the UNITED STATES which may seek overtly or covertly to modify or re-interpret the CONSTITUTION of the UNITED STATES to the ends of political, mental or ideological groups which seek to control the thinking of MAN for ideological ends.

WE DO intend to uphold by all democratic means our opinion that the AMMENDMENTS to the CONSTITUTION of the UNITED STATES are not modifications of the fact or spirit of the CONSTITUTION, but are governed and must be interpreted by the CONSTITUTION itself and that their interpretation is entirely dependent not upon the whims of court or transient government but by the CONSTITUTION itself which we hold to be a clear document, easily understood by all.

WE INSIST that it is a necessity as well as a custom and RIGHT that Citizens of our Nation accept, as a primary requisite of their Citizenship, a full and unreserved support of the CONSTITUTION of the UNITED STATES as written and that Citizenship belongs only to those who support our CONSTITUTION and the democratic WAY of LIFE for which it stands and that no others may be entitled within our land to its protection saving only routine visitors from abroad,

WE PLACE OURSELVES ON RECORD as resisting any re-interpretation of the worts of the CONSTITUTION so as to mean new things not intended by our FOUNDING FATHERS.

WE BELIEVE with our ancestors that a Citizen has a right to life, liberty and the pursuit of happiness and that unjust and discriminatory restraints upon his vocational activities was never intended and that our people are entitled to their undisputed rewards for their labors or contributions to our society, great or small, without government interference or preoccupation.

WE BELIEVE that business has a right to operate to finance itself and to profit and to engage freely in activities at home and abroad: WE BELIEVE the worker has a right to the private earning of his future savings without inspection or surveillance and WE BELIEVE that failure to observe LIBERTIES cannot but encourage foreign --- ideologies to flouish: for WE BELIEVE OUR WAY OF LIKE was founded upon the individual as an independent economic unit and not as a chattel of the state; and WE BELIEVE that government economic interference cannot but aid the spread of the foreign ideology from which the concept came; WE HOLD no argument with a non-discriminating income tax which does not invade economic Privacy, the spirit of the AMENDMENT when it became part of the CONSTITUTION.

WE FULLY OPPOSE the tactics of Communists and other ENEMIES of the STATE and the people who seek to use civil liberty and the CONSTITUTION for their own purposes only to preach foreign principles when not confronted by law and WE BELIEVE this to be an invalidation of our CONSTITUTION and is in itself an act of TREASON in that - it seeks to destroy the basic law of the land and the respect of the people for it, and WE BELIEVE that when fair trial by CONSTITUTION of means has proven beyond reasonable doubt a membership in an organization seeking to destroy our liberty, that a use in his defense by the defendant during trial of the civil liberty clauses of the CONSTITUTION shall be deemed to constitute TREASON on the grounds of seeking to destroy the CONSTITUTION by infamous connection and the defendant thus found guilty should be tried again for that TREASON.

8. WE DO NOT FAVOUR any capricious conduct or decision by any government office or agency INCLUDING the SUPREME COURT of the UNITED STATES which tends to nullify the CONSTITUTION or override the spirit in which it was originally written and so tend to promote civil discord and unquiet in which can be sown the seeds of foreign_____ ideology: and WE BELIEVE no officer of the government so offending should be exempt from the suspicion or charge of TREASON on these grounds.
9. WE DO HOLD it is the RIGHT and DUTY of local and national government to root out from schools and universities any instruction which furthers under whatever name Communist beliefs, teachings or principles and to charge those whose activity or complaisance has permitted them to exist with TREASON,
10. WE BELIEVE a Citizen has a RIGHT to protect his own Country and that he should not be made to suffer in the public press or at the hands of the STATE for seeking to expose or defend his country from its ENEMIES.
11. WE HOLD IN FAVOUR the seizure by local or national government of any and all funds and the funds in their entirety of the source of such funds that are employed to suborn the CONSTITUTION or to support in whatever degree the aims of subversive' forces,

WE BELIEVE it to be the duty of our government, local or national, to conduct itself within the framework of our CONSTITUTION and to differentiate cleanly and clearly between the HONEST CITIZEN supporting his country and the criminal and subversive individuals who by civil and theological crime seek to destroy it and that the fact of civil or ideological forems shall deprive these of their citizenship and thus inhibit any tendency toward a police state through growing carelessness of the RIGHTS of the HONEST CITIZENS.

12. WE HOLD it in the DUTY of our government at ?ms and abroad to serve the individual Citizen and safeguard his liberty and safety and to permit no incarceration of our Citizens or species gro??? of insanity, espionage, or speech in favor of our Country or our Constitution.
13. WE PLACE OURSELVES ON RECORD as recognizing that OUR LIBERTY has deteriorated by the continual assaults by criminal and ideological agencies upon OUR CONSTITUTION and by their abuse of our PRIVILEGES and WE BELIEVE at once that the many must not be victimised, by the crime and dejection of a few and that the few do not deserve and must not have the protection or the rights of that which they attack ----
